IEEE MGA Membership Recruitment and Recovery Committee (MRRC)

- The Membership Recruitment & Recovery Committee (MRRC) shall inspire and coordinate volunteer activities worldwide, with the objective of increasing and improving member recruitment, and arrears-recovery of IEEE membership.

IEEE MGA MRR Committee Composition

VOTING MEMBERS

Chair (Appointed by the MGA Board based upon recommendation of MGA Nominations & Appointments Committee)

Past Chair

10 Regional MD Coordinators (Appointed by Region Directors)

Two representatives, appointed by the Vice President, Technical Activities

CORRESPONDING MEMBERS

All MD Chairs, Societies, Sections, and Chapters

Chair, MGA MELC Committee (Ex officio)

Chair, IEEE TAB Conferences Committee (Ex officio)

Representative appointed by IEEE-USA

Representative appointed by the MGA Student Activities Committee

Representative appointed by the MGA GOLD Committee

Representative appointed by the IEEE Standards Association

Representative appointed by IEEE Woman in Engineering

STAFF SUPPORT

IEEE MGA staff lead, Membership Development

Voting Members of the MRRC 2015

The "elevator" pitch for membership

You may be asked to explain what is the IEEE. Depending on the time you have available, here are some short responses.

The 1-line Response:

IEEE is the world's largest professional association advancing technology for the benefit of humanity.

The 15-second Response:

IEEE is the world's largest professional association advancing technology for the benefit of humanity. We publish technical journals, sponsor conferences, develop technology standards, and support the professional interests of more than 400,000 members.

The 30-second Response:

IEEE is the world's largest professional association advancing technology for the benefit of humanity. We publish technical journals, sponsor conferences,

Membership Development Key Resources (Web Account Required)

- MD Webcast Archive Guide for 2012

Membership Development Manual

The image displays the IEEE Membership Development Manual cover and several promotional materials. The cover features the IEEE logo and the text "IEEE Membership Development Manual" and "September 2013 Membership Year". Below the cover are four promotional cards with various images and text, including "Engineering a Brighter Future with IEEE", "Accelerate your plans with IEEE", and "Build a better tomorrow with IEEE".

IEEE Membership Development Manual

September 2013 Membership Year

This document has been developed as a resource for IEEE Volunteers and Staff, and is not intended for general circulation with promotional materials.

Membership Development Calendar

Why is this important to me?

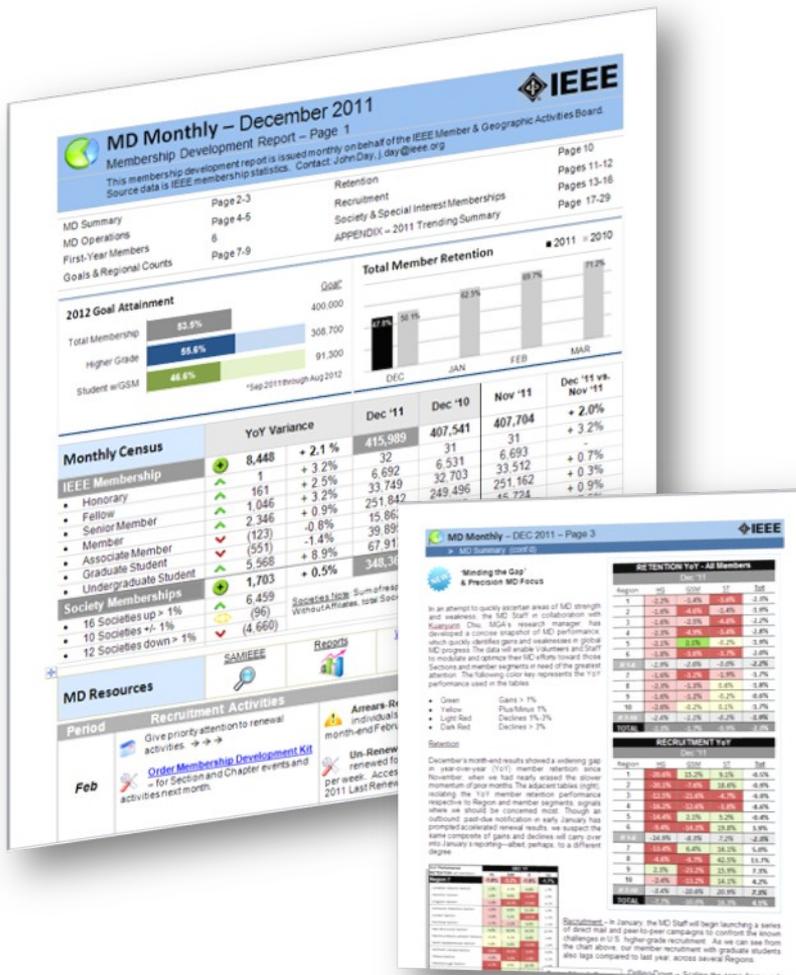

- Outlines the significant programs and processes that IEEE headquarters facilitates during the year.
- Calendar months are headed by recruitment, retention and recovery processes & programs.
- Key activities include: Pre-Arrears, Membership Termination (25 Feb), Half-Year Dues Cycle (March 1 – Aug 15), Arrears Recovery, Elevation of Student Members (June & August), Renewal Cycle (Sept) and when the *new* Membership Year begins (Sept).

Calendar Year - IEEE Membership Development

Membership development is a function of recruiting new members as well as retaining existing members. As a membership development officer, IEEE will support you with both activities. The calendar below outlines the significant programs and processes that IEEE headquarters facilitates during the year.

MONTH	RECRUITMENT	RETENTION	RECOVERY
JAN	<p>Conferences & Section Meetings – Opportunities to disseminate membership brochures</p> <p>•Organize Membership Recruitment at Universities and Companies</p>	<p>Overdue Notification – HQ mails print notification to non-renewed members informing them their IEEE membership is overdue.</p> <p>Local MD officers receive pre-termination report -check the lists of 2009 Last Renewal Year Members in SAMEEE (the non-renewed members or "pre-Arrears") from time to time and contact these members asking them to renew before going into Arrears.</p>	
FEB	<p>Conferences & Section Meetings – Opportunities to disseminate membership brochures at all section meetings and local events.</p> <p>•Organize Membership Recruitment at Universities and Companies</p>	<p>Termination Warning – beginning of February – HQ mails non-renewed members reminder to renew their membership prior to month's end to avoid termination.</p> <p>Local MD officers -check the lists of 2009 Last Renewal Year Members in SAMEEE (the non-renewed members or "pre-Arrears") from time to time and contact these members asking them to renew before going into Arrears.</p> <p>Membership Terminates – End of February – Actual refresh of the last membership database to determine which members have allowed their membership to go into arrears.</p>	<p>Section MU Officer – Real-time status of past-due members available in SAMEEE to all regional, section, & society MD officers. Develop communications plan for local outreach to members who go into Arrears in March.</p>
MAR	<p>Make recovery related activities your 1st priority & focus.</p> <p>½-Year Dues Cycle – 15th HQ begins accepting ½-price dues for present year of service. Individuals who join IEEE this month receive 10 months of membership for the price of 6. Incorporate message into outreach.</p> <p>Conferences & Section Meetings – Opportunities to disseminate membership brochures</p>		<p>Arrears Recovery / HQ – US and Canada only Recovery outreach begins for those members whose membership has elapsed.</p> <p>-E-mail message to recover arrears members in all regions</p> <p>-Region and Section recovery efforts should also commence.</p> <p>Section MD Officer – Real-time status of past-due members (Arrears) available in SAMEEE to all regional, section & society MD officers. Local outreach to members who went into Arrears.</p>
APR	<p>Make recovery related activities your 1st priority & focus.</p> <p>½-Year Dues Cycle – 15th HQ begins accepting ½-price dues for present year of service. Individuals who join IEEE this month receive 9 months of membership for the price</p>		<p>Section MU Officer – Real-time status of past-due members (Arrears) available in SAMEEE to all regional, section, & society MD officers. Local outreach to members who went into Arrears.</p> <p>Arrears Recovery / HQ – IEEE</p>

Tips for Searching FAQs

Browse the **Popular Questions** section for the most current and frequently requested information. Use the **Search** function to find content by keyword, or refine your inquiry using **Advanced Search** to filter the knowledgebase by Support Topics. Natural language search allows for expanded search phrase entries to give you the most targeted and relevant results.

IEEE Center for Leadership Excellence

When fully operational, it will serve as the repository for all leadership training material within IEEE to ensure IEEE keeps pace with its evolving organization. Additionally, it will meet the needs of IEEE volunteer leadership by providing materials that will enable volunteers to accomplish their jobs efficiently and effectively; thus allowing them to spend more time ensuring that members are engaged in IEEE activities so that IEEE member satisfaction and relevance continue to grow.

List of New Members in your Section

- New joined members targeted
- E-mail sent from IEEE monthly to all Section Chairs and Section MD officers containing special hyperlink to SAMIEEE/Analytics log-in page
- Upon log-in, SAMIEEE /Analytics will automatically run report of new members from previous month
- Report contains contact information, as well as the reason(s) why they joined IEEE
- Report date-range can be modified to pick-up new joins from previous months in your dashboard
- **Now** contains report of new members in arrears – new tab in dashboard

New Member Alert Process

New Member Orientation

All new higher-grade IEEE members are invited to participate in a New Member Orientation session designed to help members get the most out of their membership. These live webinars, which include a 30-minute formal presentation followed by Q&A, provide an overview of IEEE membership and access instructions for members-only benefits and services. Topics include managing your IEEE Account, setting up a profile on memberNet, logging into myIEEE, networking opportunities, and much more.

Visit the Welcome to IEEE Web page www.ieee.org/start

To register for a New Member Orientation, typically held on the fourth Thursday of each month. Webinars are held at both 9:00 AM ET and 3:00 PM ET on each day. Please [e-mail Denise Maestri](#) for more information.

e-Notice

Tool for sending mass mailing to members in your OU

Good thing is addresses are automatically pulled out from IEEE database

Caveats:

Some members do not have their address up to date

Members can opt-out

You cannot know whether an address worked or not

Messages are handled manually by IEEE staff, taking time to process

Do not use for conference promotion. These are handled separately

Try to avoid excessive mailing. Coordinate with other officers in the Section

Speaker:

Sergio Liberman

Topic: DSP - The Technology Behind Multimedia

The multimedia products that we enjoy today share a common technology backbone: digital signal processing (DSP). The digital revolution for consumers started with the introduction of the Compact Disc (CD) format for music distribution. With the increasing computing power and lower cost of digital processing resulting from Moore's Law, advanced signal processing algorithms have allowed consumer products such as HDTV, DVD and Blu-ray, MP3 players, multimedia capable smartphones, and audio/video streaming. This presentation will look into how analog signals such as sound and pictures are brought in and out of the digital domain for communication, storage, transmission, processing and playback, as well as some of the DSP algorithms.

Biography: Sergio Liberman has more than 24 years of experience in the semiconductor industry, in design and architecture of over 20 chips including DSP processors, digital-to-analog converters, Class-D audio amplifiers and SoC application processors. These devices have been used in digital audio systems for consumer, professional and automotive applications. Sergio holds two patents in high-performance audio digital-to-analog converter design, and has authored over 15 technical publications, during his 28 year career span in electronic engineering. Sergio holds a B.Sc. EE from Tel-Aviv University.

Email: sergio.liberman@gmail.com

Address: Austin, Texas, United States

Meeting Agenda:

6:00 - 7:00 : Networking

7:00 - 8:15 : Presentation

8:15 - 8:30 : Questions and wrap up

- Show "Clear Page" button at the bottom of survey pages.
- Show "Save Page" button at the bottom of survey pages.
- Show "Exit Survey" button at the bottom of survey pages.
This option will add an 'Exit Survey' button to the bottom of your survey that will allow a respondent to exit the survey, deleting any responses they have provided.
- Allow users to download/print responses upon completion of the survey.
- Display a button that will allow users to download a PDF or Word document to review their responses before completing the survey.
- Allow user to edit their responses after completing the survey
 - Display a warning notifying users that they are modifying an existing response.
- Auto-select Checkboxes
This option determines whether or not checkbox type questions' choices should be automatically selected when typing in a text-response enabled choice.
- Use Fieldset and Legend elements in the HTML Markup for the survey.
This option will wrap every question in a separate HTML fieldset element. Each question title will be placed in an legend tag. This may be useful for improving screen-reader accessibility, but may alter the visual display of the survey in some browsers.
- Skip validation after errors

Terms & Conditions
Automatic Access Officer Positions
Reference Materials

SAMIEEE is a Web based ad hoc query tool that provides volunteers access to member data. It allows ad hoc querying, reporting, and downloading of IEEE's membership data to authorized or designated IEEE volunteers.

On this Page:

- Access SAMIEEE
- Browser information
- Training

Upgrade Tools

- View what's new with SAMIEEE (MP4, 15.5 MB)
- View the powerpoint training slides (PPTX, 975KB)

Additional SAMIEEE Tools

- Join/Log into the SAMIEEE online community

Access SAMIEEE

Upon accessing you agree to accept the terms of condition and use.

[Access SAMIEEE](#)

[top of page](#)

Browser information

The following browsers are currently supported by the SAMIEEE tool:

- Internet Explorer 7.x
- Internet Explorer 8.x
- Firefox 3.5
- Firefox 3.6
- Safari 4.x
- Safari 5.x
- Chrome 12+

If you have any questions, contact samiee@ieee.org.

[top of page](#)

Training

New training modules are being developed. They will be made available as they are completed.

[View the recorded WebEx "what's new" training session.](#)

IEEE

Volunteer Access to Membership Statistics

- Need IEEE Web Account
- Registered Users with Designated Access (officer position determines data that is pulled)
- Membership statistics by Geographical – Region, Section, Affinity Group
- Membership statistics by individual Society
- Pre-defined queries to access reports easily (MD) Folder with related pre-defined queries for membership development data
- Geographic & Society Predefined Queries
- Questions? Contact: Helen Shiminsky at h.shiminsky@ieee.org or samiee@ieee.org
- Society Questions? Contact: Mary Curtis at m.curtis@ieee.org

SAMIEEE

- The SAMIEEE database is accessible to all Section Chairs, Chapter Chairs and others such as Gold and Life Member affinity group leaders as well as designated SAMIEEE persons
- The database includes all of the information that members supply on their membership form as well as your IEEE membership level, history of offices held, etc.
- The data available for searching will be limited by your IEEE position, e.g.
- There is nothing that you can do to modify the database, so don't worry about mistakes

SAMIEEE - Getting started

- **Google “SAMIEEE”**
 - Click on one of the top URLs
- **On the SAMIEEE home page click on “Access SAMIEEE”**
- **Use your IEEE account info to log in to Oracle**
 - Searches of the database are called analyses
- **In the “Get Started...” click on the “Introduction to Oracle BI”**
- **Select the “Users Guide” in the Oracle Business Intelligence Enterprise Edition.**
 - Section 2. “Creating Analyses Section” will get you started

Information available in SAMIEEE

Volunteers can **select, print and/or download their organizational unit's data**. **Predefined (prewritten) queries are provided** but users **can create customized queries and download results** into a Microsoft Excel spreadsheet, HTML or CSV file.

The data included in SAMIEEE **contains active IEEE members as well as members in arrears or inactive for up to three years**. Society membership is available for active and inactive member information for the last three years.

Also available are Society Affiliates. Affiliates are not members of IEEE, but are members of an IEEE Society.

Data Retrieved

Data retrieved in SAMIEEE is for “your” organizational unit only. It is also limited by your position. For example:

Regional MD Chair – will retrieve all members associated with their Region.

Section MD Chair – will retrieve all members associated with their Section.

Society MD Chair – will retrieve only members and affiliates of their Society.

Annual service deactivation - February

- Members who have not paid their dues are changed to an IEEE Membership Status of “arrears”
- Members who were in “arrears” are changed to “inactive.”
- The definitions of the IEEE Membership Status levels are:
 - AR - member has not renewed for the current membership year (eg 2015);
 - IN - member has not renewed since the previous membership year (eg 2014 or prior);
 - RS - member has informed IEEE that he or she wished to discontinue membership;
 - NA - different reasons for NA. Most of these records were never members.

IMPORTANT: User access to SAMIEEE is limited by organizational unit and to the following IEEE volunteer positions
(names must be in the Geographic Roster!)

- Region Directors, Director Elects, Past Directors, Treasures, Secretaries
- Region MD Chairs
- Section/Council/Subsection Chairs, Vice Chairs, Treasures and Secretaries
- Section/Council/Subsection MD Chairs
- Chapter and Joint Chapter Chairs
- Student Branch Chairs and Counselors
- Society Presidents, President Elects, Past Presidents, Vice Presidents, Treasures, Secretaries, Executive Directors, Administrators, Chapter Coordinators
- Society MD Chairs

Logging into SAMIEEE

Open an Internet Browser – log onto the SAMIEEE home page.

<http://www.ieee.org/samieee>

- Select the appropriate link
- Enter the email address and account password.
- Click on sign in button.

Special IEEE Notification

Please note that IEEE Communications Preferences have been changed to clarify intent. As a result, there are changes to the "Contact Flags" in the subfolder within the "Member Info" folder. These changes represent a reverse in meaning to the original fields. For example "Do Not Call" is now "OK to Call", "Do Not Email" is now "Send E-Mail", etc. If you have saved queries in "My Folder" that include any "Contact Flags", you must remove them, and add the new ones. If the old fields remain in your query, the report will not run.

Special IEEE Notification

Please note that IEEE Communications Preferences have been updated. As a result, there are changes to the "Contact Flags" in the report. These changes represent a reverse in meaning to the old ones. "Do Not Call" is now "OK to Call", "Do Not Email" is now "Send E-Mail", etc. If you have any "Contact Flags", you must remove them, and add the new ones. If the old fields remain in your query, the report will not run.

Additional Lists

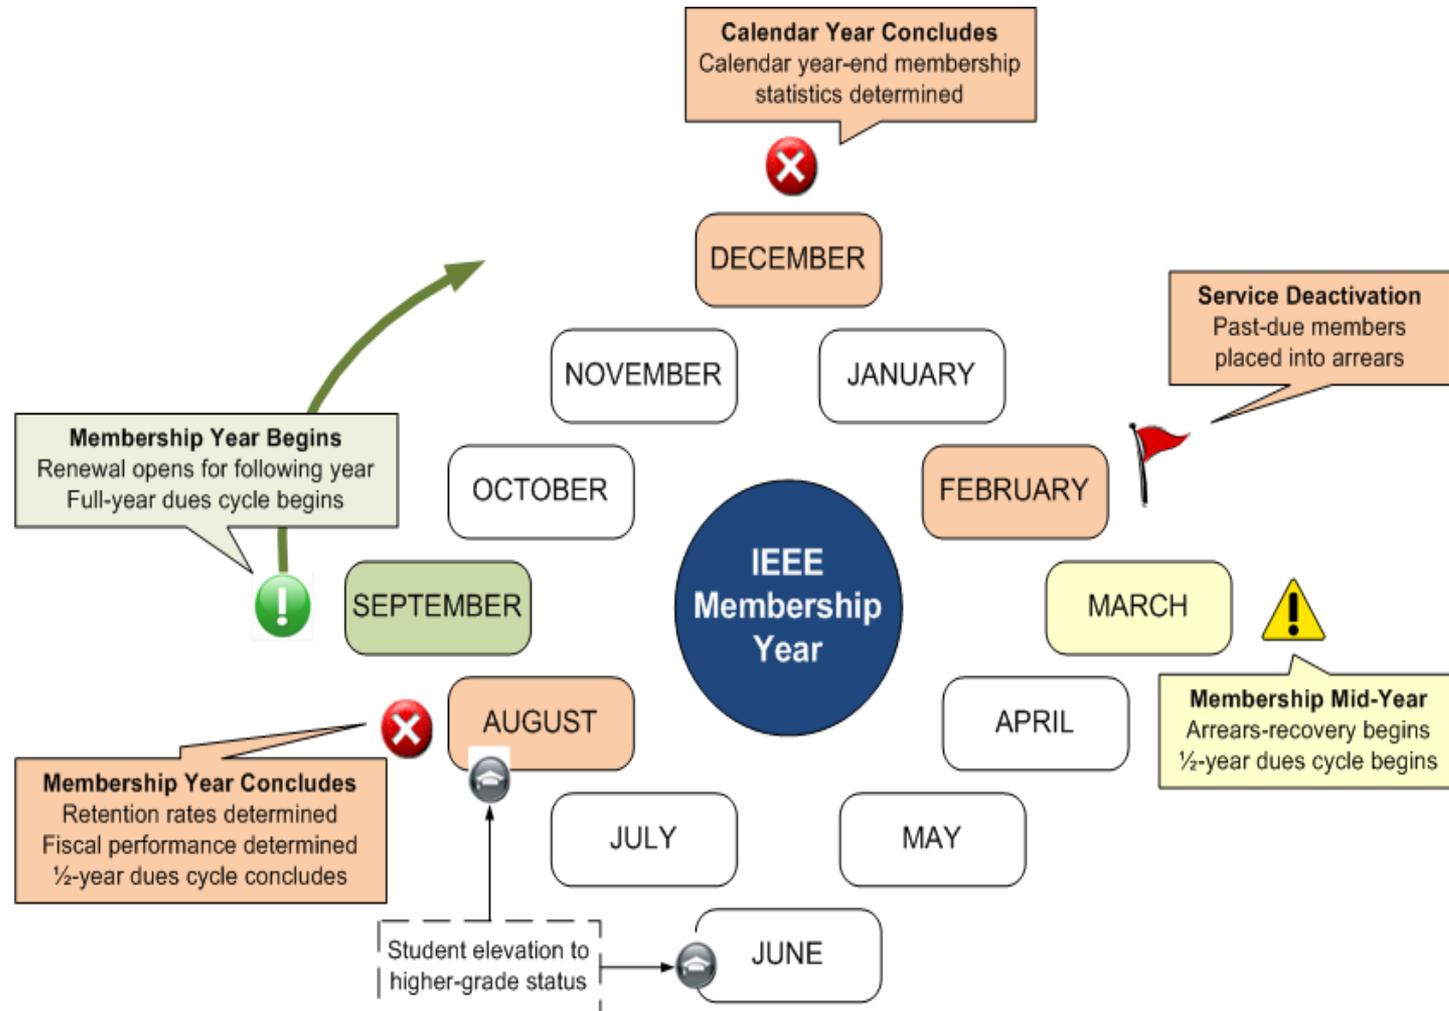

The screenshot shows the Oracle Business Intelligence Vitality Dashboard. The top navigation bar includes the Oracle logo, 'Business Intelligence', a search bar with 'All' selected, and links for 'Advanced', 'Help', and 'Sign Out'. Below this is a secondary navigation bar with 'Home', 'Catalog', 'Favorites', 'Dashboards', 'New', 'Open', and 'Signed In As e.perkins@ieee.org'. The main content area is titled 'Additional Member Lists' and contains a form with the following elements:

- A 'Section Name' dropdown menu with 'Select Section;Oregon' selected, and 'Apply' and 'Reset' buttons.
- Five empty input fields with a right-pointing arrow icon.
- A section titled 'Address Label Fields (Select Membership Status)' containing three radio buttons: 'Active', 'Arrears', and 'Inactive'.
- 'OK' and 'Reset' buttons at the bottom of the form.

Overlaid on the right side of the dashboard are the following text elements:

- Email
- No Email
- Active (Cons, WIE, Stds)
- GOLD (YP) Members
- Life Members

Membership Development Cycle

MD Monthly Webcast

**IEEE Membership Development
Conference Call / Web Cast**

18 January 2013

Ed Perkins
Chair, 2013 IEEE Membership Recruitment and Recovery (MRR) Committee
e.perkins@ieee.org

Cathy Downer
MGA Staff - Membership Development
c.downer@ieee.org

IEEE
Advancing Technology
for Humanity

Monthly MD Webcast

- Runs about 60 minutes
- Volunteers & Members present on topics, along with IEEE Staff
- Standard format
- Open floor question and answer period
- Each session is recorded

Ed Perkins, Host of MD Webcast and MGA 2014 Chair of Member Recruitment & Recovery (MRR) Committee

The Archive Guides:

- Grouped by month
- Listed by presentation topic, speaker, file posted in PDF
- Each file accessed by IEEE web account

Defining Terms

What is?
IEEE Web Resources

What is – membership terms

Applicant: New member who has not completed the join process – his/her dues have not been paid and processed.

Recruiting: Seeking out new (non) members for membership in IEEE.

Grace Period: January and February are considered the “Grace Period” for members who have not yet renewed for the present membership year. They are still considered active members until the end of February when the service disruption occurs.

Pre-Arrears: Active members who have not yet renewed for the coming membership year by the end of February.

Arrears: Member who has not renewed by the end of February for the membership year becomes deactivated.

Recovery: Outreach to members in arrears to renew their membership.

Reinstate: Bringing back past members who have had a break in their membership status (not paid dues for more than a year) to active membership.

Retention: Retaining existing members by renewing their membership.

Geographical Unit – An IEEE unit based on geographical boundaries such as regions, sections, subsections, etc.

What is – Member Grade definitions

Associate Member: Associate Member grade is designed for technical and non-technical individuals who do not meet the qualifications for Member grade, but who wish to benefit from membership and partnership in IEEE, and for those who are progressing, through continuing education and work experience, towards qualifications for Member grade.

Affiliate: Society Affiliate is a member of an IEEE Society. Society Affiliates are not IEEE members and are not entitled to any IEEE benefits or services that are reserved solely for IEEE members. All affiliate benefits and services come directly from the individual IEEE Society offering affiliation. For each society affiliated with, the applicant pays a separate annual affiliate fee plus that IEEE Society's annual membership dues.

Graduate Student Member: A Graduate Student Member must carry at least 50% of a normal full-time academic program as a registered graduate student in a regular course of study in IEEE-designated fields. The total cumulative period for a member to hold the Student Member grade and/or the Graduate Student Member grade is limited to 8 years.

IEEE GOLD/Young Professional: GOLD is the identification of a segment of IEEE Members who have advised IEEE they have graduated with their first professional degree. GOLD is not a member grade. The member's record needs to have a full educational background and graduation dates in order for the identification of GOLD. Student Members cannot be GOLD, but Graduate Student Members can be GOLD as they have graduated with their first professional degree and are in advanced degree program. A member will belong to the GOLD segment for ten years after receiving their first degree.

What is – Member Grade definitions

A **Student Member** must carry at least 50% of a normal full-time academic program as a registered undergraduate or graduate student in a regular course of study in IEEE-designated fields. The total cumulative period for a member to hold the Student Member grade and/or the Graduate Student Member grade is limited to 8 years. Student Members, upon graduation or upon reaching the 8-year limit (whichever occurs first), with at least a baccalaureate or higher degree (or its equivalent) from an accredited institution in an IEEE-designated field will be transferred automatically to Member grade. Student Members outside of the IEEE-designated fields, upon graduation or upon reaching the 8-year limit (whichever occurs first), will be transferred to Associate Member grade

Member grade is limited to those who have satisfied IEEE-specified educational requirements and/or who have demonstrated professional competence in IEEE-designated fields of interest. For admission or transfer to the grade of Member, a candidate may be either:

- (a) An individual who has received a three-to-five year university-level or higher degree from an accredited institution or program and in an IEEE-designated field
- (b) An individual who has received a three-to-five year university-level or higher degree from an accredited institution or program and who has at least three years of professional work experience engaged in teaching, creating, developing, practicing or managing in IEEE-designated fields; or
- (c) An individual who, through at least six years of professional work experience, has demonstrated competence in teaching, creating, developing, practicing or managing within IEEE-designated fields.

What is – Member Grade definitions

The grade of **Senior Member** is the highest for which application may be made and requires experience reflecting professional maturity. For admission or transfer to the grade of Senior Member, a candidate shall be an engineer, scientist, educator, technical executive, or originator in IEEE-designated fields. The candidate shall have been in professional practice for at least ten years and shall have shown significant performance over a period of at least five of those years, such performance including one or more of the following:

- (a) Substantial responsibility or achievement in one or more of IEEE-designated fields; or
- (b) Publication of papers, books, or inventions in one or more of IEEE-designated fields; or
- (c) Technical direction or management of important work with evidence of accomplishment in one or more of IEEE-designated fields; or
- (d) Recognized contributions to the welfare of the professions encompassed by one or more of the IEEE-designated fields; or
- (e) Development or furtherance of important courses in one or more of the IEEE-designated fields at an institution in the REP list; or
- (f) Contributions equivalent to those of (a) to (e) in areas related to IEEE-designated fields, provided these contributions serve to advance progress substantially in IEEE-designated fields.

What is – Member Grade definitions

The grade of **Fellow** recognizes unusual distinction in the profession and is conferred only by invitation of the Board of Directors upon a person with an extraordinary record of accomplishments in any of IEEE's designated fields of interest. The year of election to the grade of Fellow is the year following affirmative action by the Board of Directors in conferring the grade of Fellow. The candidate shall hold Senior Member grade at the time the nomination is submitted. Normally, the candidate shall have been a member in any grade for a period of five years or more preceding January 1 of the year of election; however, the five-year membership requirement may be waived for a Fellow candidate who has been engaged in professional practice (as needed to qualify for Senior Member grade) in a geographical area where, in the judgment of the Board of Directors, it was difficult to become a member previously, as evidenced by the absence of a Section previously and the recent formation of a new Section to cover that geographical area. In such case, membership of five years or more in a recognized local electrical, electronics, or computer engineering society may substitute for the five-year IEEE membership requirement, when the nomination is submitted within four years after the formation of the new Section.

The designation **Life Member** is applicable only to a member who has reached the age of 65 years and who has been a member of IEEE (or one of its predecessor societies) for such a period that the sum of his/her age and his/her years of membership equals or exceeds 100 years. All members having the designation Life Member (or Member-for-Life in the predecessor societies) shall be designated as a Life Member in IEEE. Any member who would have been qualified on or before 31 December 1963 to be a Member-for-Life of AIEE, under the rules of eligibility of AIEE, or to be a Life Member of IRE, under the rules of the IRE, shall be qualified to be a Life Member of IEEE. The Executive Director shall grant Life Membership status to any member who would qualify for Life Membership during the remainder of the transition period prior to 1998 under the previous IEEE Bylaw. Basic dues and assessments are waived for those achieving Life Member status.
